

A photograph showing the silhouettes of two children walking away from the camera on a paved sidewalk. They are holding hands. The child on the left is smaller, and the child on the right is taller. The background is a bright, overexposed outdoor area.

# Sibling Support Group

Being the sibling of a Special Needs child can be isolating, difficult, and sometimes frustrating. We would like our Special Needs siblings to have the opportunity to get to know each other and know that they are not alone. We hope that this will be a social, fun, time for them and a place where they will also feel safe expressing their feelings. There will be an opportunity to share their experiences, play games and get to know each other.
